

# **Pillar Kiosk**

## **Schedule**

2006-02-08

**Info:** The first stages of the Pillar Kiosk schedule are contingent on acquiring a budget for buying the materials necessary to build. Once the budget is in place, the materials are to be ordered ASAP, relying specifically on local vendors because of the nature of the project timeline. Another element impacting the schedule is that an anticipated majority of the construction will have to take place on site.
